Service & Maintenance Checklist – Expandable Trailer

This checklist applies to the maintenance of your Expandable Trailer. Follow the maintenance intervals below strictly to ensure optimal performance, safety, and product longevity.

Maintenance Schedule

- Maintenance 0 – 2 weeks / 2,000 km
To be carried out 2 weeks after delivery or at 2,000 km (whichever comes first)
- Maintenance 1 – 30,000 km / 3 months
- Maintenance 2 – 60,000 km / 6 months
- Maintenance 3 – 120,000 km / 12 months

Execution of Maintenance

All maintenance and service activities covered by this checklist must be carried out by Expandable or by an Expandable-certified service partner. This is required to ensure safety, reliability, and warranty compliance.

Operator Information

Operator-related information and usage instructions can be found in the supplied **user manual** or on our support website. Scan the QR code below and select the correct product on our support page.

Technical Support

For workshop instructions, technical documentation, or support:

info@expandable.nl | +31 (0)85 890 21 88 | www.expandable-trailers.com/contact

Important

- Failure to follow the prescribed maintenance schedule may result in malfunctions or warranty limitations.
- Perform regular visual inspections for wear, damage, and proper operation of key components.
- Report any irregularities or defects immediately to Expandable or an authorized service partner.

INDEX

Maintenance - 2 weeks / 2000 kilometers.....	04.
Maintenance - 1	08.
Maintenance - 2	13.
Maintenance - 3	20.

Expandable System

CHECKPOINT

ACTION

Doors and locks functioning	Visual inspection - Functional test	
Walls - Moulded parts	Visual inspection - damage	
Head pipes	Alignment check - bolt fastening	
Hydraulic system	Check for oil leaks - cylinders - couplings - hoses - oil level	
Expandable Hydro Functions. Hydraulic legs / slide outs / levelling	Check functional operation	
Expandable 24V power supply / charging system / shore power	Check functional operation	
Slide outs	Operation - functionality - alignment - signs of wear	
Sensors Levelling - Slidin	Visual inspection - Functional test	
Control panel	Visual inspection - Functional test	
Remote	Visual inspection - Functional test	

Identification

Number plate present and legible	Visual inspection - damage	
----------------------------------	----------------------------	--

Air systems Brakes + Air suspension

CHECKPOINT

ACTION

Service brake	Brake test	
Parking brake	Brake test	
Brake lines airtight	Visual inspection - Damage	
Brake hoses undamaged	Visual inspection - Damage	
Brake cylinders leak-free	Visual inspection - Damage	
ABS/EBS no malfunctions	Reading	

Body

Head valve	Check operation - damage - remove contamination	
------------	---	--

Axles + Wheels

Axle spring pin bolts	Torque check	
No cracks or bulges in tyres	Visual inspection	
Tyre pressure correct	Tyre pressure gauge check	
Rims undamaged	Visual inspection	
Wheel nuts complete and tight	Torque check	

Lighting

CHECKPOINT

ACTION

Rear lights	Function check - damage	
Brake lights	Function check - damage	
Left/right indicators	Function check - damage	
Number plate lights	Function check - damage	
Marker and contour lights	Function check - damage	
Torches	Function check - damage	
Reflectors visible	Visual inspection - Repair	
Plug and cables undamaged	Visual inspection	

Clutch & Safety

Kingpin bolt tightness	Torque check	
Connectors Head valve operation - damage	Visual inspection - Functional test	

Options

CHECKPOINT

ACTION

Air conditioning system	Functional operation check	
LED interior lighting	Visual inspection - Functional test - Damage	
LED exterior lighting	Visual inspection - Functional test - Damage	
Phase rail LED spotlight	Visual inspection - Functional test - Damage	
Electric sliding doors	Visual inspection - Functional test - Damage	
Hybrid battery Solar	Visual inspection - Functional test	
Sliding frame	Visual inspection - Functional test	
Transport fixings	Presence - Functional test	
Radial dampers	Visual inspection - Functional test	
Lock	Visual inspection - Functional test
